- Behaviour has consequences which increase or reduce choices in life.
- Individuals will be expected to accept responsibility for their own behaviour.
HEALTH: Medical conditions: Medical conditions must be included on the enrolment form and discussed as part of the enrolment interview with the family. The service must receive a medical management plan and medication to ensure that the educators are informed of the required procedures and understand that the plan must be followed by providing regular interventions as detailed (e.g. blood glucose monitoring) or emergency first aid as described in the event of an incident involving the child.

OSHC will:
- Set up a process for informing all staff (including volunteers) of the needs of the individual child. This must be done in a manner that protects the rights and dignity of the child.

Nutrition:
St Martin de Porres School Outside School Hours Care considers nutrition to be a vital component in the healthy development of children. The service uses the Dietary Guidelines for Children and Adolescents, developed by the National Health and Medical Research Council, as a basis for the service’s policy and practices regarding nutrition. We are compliant with the food handling practices contained in Australian Food Safety Standards. Our educators and staff are asked to model best practice at all times.
Providing a balanced and nutritional diet assists children to develop healthy eating strategies and practices that can set the foundation for a child’s future health and eating habits. OSHC services can play a significant role in helping children develop positive attitudes and habits for healthy eating. The service must meet the requirements of the Australian Food Safety Standards and ensure that its educators are kept informed of the latest information. In addition, the service undertakes to ensure that educators have the opportunity to undertake Food Handling Training.
**Child Care Management System (CCMS)**

The Child Care Management System (CCMS) is a national child care system that will bring all approved child care services online. Our centre will use the CCMS registered software to record child, enrolment and attendance information. Parents/Guardians of children will be able to access an online statement via the “View Child Care Details” of the online services section of the Centrelink website [http://www.mychild.gov.au](http://www.mychild.gov.au)

This statement includes details of CCB payments and absences. CCMS ensures that CCB fee reductions are calculated on your child’s actual use of care.

Due to the privacy act, any problems relating to your Child Care Benefit rebate will be your responsibility to contact Centrelink ensuring you receive the correct entitlements. We no longer able to work out fees in advance.

**Child Care Benefit**

Child Care Benefit is an Australian Government payment made to families who meet the eligible criteria, to assist with the cost of child care.

High quality child care plays an important role in improving children’s educational and developmental outcomes. Child care also enables parents to participate in the workforce and the broader community.

Through CCB, more families are able to afford childcare. This contributes to a higher level of utilisation of child care services. Families using approved child care can choose to receive CCB through fee reductions or as a lump sum payment. For families choosing to receive CCB as a fee reduction, the level of fee reduction is based on their estimated adjusted taxable income for the year in which the care was received. Their actual entitlement is calculated once actual incomes are known, after the Australian Taxation Office processes their tax returns. The difference between entitlement and fee reductions received is paid or recovered from families by the Family assistance Office.

**Child Care Rebate**

From July 2011, the Government provides families with the option to receive their Child Care Rebate (CCR) paid fortnightly, either directly to their bank account, or through their child care service provider as a fee reduction.

Families still have the option to receive their CCR paid quarterly or annually as a lump sum directly to their bank account.

The CCR entitlement is calculated as 50 per cent of the out-of-pocket child care expenses for approved child care up to an annual cap. From July 2011, the CCR annual cap is $7,500 per child per year.

To be eligible for the CCR, families must have used approved child care.

**To apply for CCB or CCR call the Family Assistance Office.**

**For information please visit:** [http://www.mychild.gov.au/childcare-information/fact-sheets](http://www.mychild.gov.au/childcare-information/fact-sheets)

**Exceptions:** If a family requests an alternative method re’ the payment of fees, they must make a written agreement with the Director which will be kept in the family’s own file for future reference. After all avenues of fee recovery are met action will be implemented on behalf of the School Board to ensure that outstanding monies owed to the centre for administration fees and attendance fees are received. Any costs incurred to recover said fees will be debited to your account.
